JCT Fluctuations Option A

(Contribution, levy and tax fluctuations)

Deemed calculation of Trade Contract Sum or Tender Sum – labour

- A.1** The Trade Contract Sum or Tender Sum shall be deemed to have been calculated in the manner set out below and shall be subject to adjustment in the events specified hereunder.
- A.1.1** The Trade Contract Sum or Tender Sum is based upon the types and rates of contribution, levy and tax payable by a person in its capacity as an employer and which at the Base Date are payable by the Trade Contractor. A type and a rate so payable are in paragraph A.1.2 referred to as a 'tender type' and a 'tender rate'.
- A.1.2** If any of the tender rates other than a rate of levy payable by virtue of the Industrial Training Act 1982 is increased or decreased, or if a tender type ceases to be payable, or if a new type of contribution, levy or tax which is payable by a person in its capacity as an employer becomes payable after the Base Date, then in any such case the net amount of the difference between what the Trade Contractor actually pays or will pay in respect of:
- A.1.2.1** operatives engaged upon or in connection with the Works either on or adjacent to the site; and
- A.1.2.2** operatives directly employed by the Trade Contractor who are engaged upon the production of materials or goods for use in or in connection with the Works and who operate neither on nor adjacent to the site and to the extent that they are so engaged
- or because of its employment of such operatives and what it would have paid had the alteration, cessation or new type of contribution, levy or tax not become effective shall, as the case may be, be paid to or allowed by the Trade Contractor.
- A.1.3** There shall be added to the net amount paid to or allowed by the Trade Contractor under paragraph A.1.2, in respect of each person employed by the Trade Contractor who is engaged upon or in connection with the Works either on or adjacent to the site and who is not within the definition of operatives in paragraph A.11.3, the same amount as is payable or allowable in respect of a skilled operative under paragraph A.1.2 or such proportion of that amount as reflects the time (measured in whole working days) that each such person is so employed.
- A.1.4** For the purposes of paragraph A.1.3:
- A.1.4.1** no period of less than 2 whole working days in any week shall be taken into account and periods of less than a whole working day shall not be aggregated to amount to a whole working day;
- A.1.4.2** "the same amount as is payable or allowable in respect of a skilled operative" shall refer to the amount in respect of a skilled operative employed by the Trade Contractor (or by any sub-contractor under a sub-contract to which paragraph A.3 refers) under the rules or decisions or agreements of the Construction Industry Joint Council or other wage-fixing body and, where those rules or decisions or agreements provide for more than one rate of wage, emolument or other expense for a skilled operative, shall refer to the amount in respect of a skilled operative employed as aforesaid to whom the highest rate is applicable; and

- A.1.4.3 “employed by the Trade Contractor” shall mean an employment to which the Income Tax (Pay As You Earn) Regulations 2003 apply and “skilled operative” shall mean a person entitled to be paid a “skill rate” under the Construction Industry Joint Council Working Rule Agreement or similar agreements of any other wage-fixing body, current at the Base Date.
- A.1.5 The Trade Contract Sum or Tender Sum is based upon the types and rates of refund of the contributions, levies and taxes payable by a person in its capacity as an employer and upon the types and rates of premium receivable by a person in its capacity as an employer being in each case types and rates which at the Base Date are receivable by the Trade Contractor. Such a type and such a rate are in paragraph A.1.6 referred to as a ‘tender type’ and a ‘tender rate’.
- A.1.6 If any of the tender rates is increased or decreased or if a tender type ceases to be payable or if a new type of refund of any contribution, levy or tax payable by a person in its capacity as an employer becomes receivable or if a new type of premium receivable by a person in its capacity as an employer becomes receivable after the Base Date, then in any such case the net amount of the difference between what the Trade Contractor actually receives or will receive in respect of operatives as referred to in paragraphs A.1.2.1 and A.1.2.2 or because of its employment of such operatives and what it would have received had the alteration, cessation or new type of refund or premium not become effective shall, as the case may be, be paid to or allowed by the Trade Contractor.
- A.1.7 The references in paragraphs A.1.5 and A.1.6 to premiums shall be construed as meaning all payments howsoever they are described which are made under or by virtue of an Act of Parliament to a person in its capacity as an employer and which affect the cost to an employer of having persons in its employment.
- A.1.8 The references in paragraph A.1 to contributions, levies and taxes shall be construed as meaning all impositions payable by a person in its capacity as an employer howsoever the said person is described and regardless of the identity of the recipient which are imposed under or by virtue of an Act of Parliament and which affect the cost to an employer of having persons in its employment.

Deemed calculation of Trade Contract Sum or Tender Sum – materials

- A.2** The Trade Contract Sum or Tender Sum shall be deemed to have been calculated in the manner set out below and shall be subject to adjustment in the events specified hereunder.
- A.2.1 The Trade Contract Sum or Tender Sum is based upon the types and rates of duty, if any, and tax, if any (other than any VAT which is treated, or is capable of being treated, as input tax by the Trade Contractor), payable by any person, and which at the Base Date are payable on the import, purchase, sale, appropriation, processing, use or disposal of the materials, goods, electricity, fuels, materials taken from the site as waste or any other solid, liquid or gas necessary for the execution of the Works by virtue of any Act of Parliament. A type and a rate so payable are in paragraph A.2.2 referred to as a ‘tender type’ and a ‘tender rate’.
- A.2.2 If, in relation to any materials or goods or any electricity or fuels or materials taken from the site as waste or any other solid, liquid or gas necessary for the execution of the Works including temporary site installations for those Works, a tender rate is increased or decreased or a tender type ceases to be payable or a new type of duty or tax (other than any VAT which is treated, or is capable of being treated, as input tax by the Trade Contractor) becomes payable on the import, purchase, sale, appropriation, processing, use or disposal of any of the above things after the Base Date, then in any such case the net amount of the difference between what the Trade Contractor actually pays in respect of those materials, goods, electricity, fuels, materials taken from the site as waste or any other solid, liquid or gas and what it would have paid in respect of them had the alteration, cessation or imposition not occurred shall, as the case may be, be paid to or allowed by the Trade Contractor. In this paragraph A.2.2 “a new type of duty or tax” includes an additional duty or tax and a duty or tax imposed in regard to any of the above in respect of which no duty or tax whatever was previously payable (other than any VAT which is treated, or is capable of being treated, as input tax by the Trade Contractor).

The reference to market price in this paragraph C.3 shall be construed as including any duty or tax (other than any VAT which is treated, or is capable of being treated, as input tax by the Trade Contractor) payable by any person under or by virtue of any Act of Parliament on the import, purchase, sale, appropriation or use of the article specified as aforesaid.
